

K-Love is a wonderful, positive, encouraging radio station that brings hope, help and healing to countless thousands of people on a daily basis. To eliminate or change the availability of this station would be devastating to all of those who count on it for news and spiritual help. Christianity is a matter of public interest! Children can listen to this station without listening to cursing or inappropriate ads. The family can listen together. That is rare and important in this day in age. Thank you.
